

A Program of Conservation Legacy

AZCC Corpsmember Position Description

As an AmeriCorps program participant, the Corpsmember will work effectively as a member of crew; perform heavy manual labor related to environmental conservation and restoration projects such as constructing or maintaining trails and other recreational sites/areas; removing invasive plants from public lands and planting/maintaining native plants; improving riparian and forest habitat and vegetation; and conducting fire fuels reduction projects. The Corpsmember will be required to work outdoors in all types of weather and successfully adapt to various climates; camp overnight outdoors in wilderness areas near work sites for short or extended periods of time; effectively learn and apply new environmental conservation and restoration skills and outdoor living skills; actively participate in environmental education activities; practice appropriate safety procedures in all tasks assigned; use, maintain and repair hand and power tools as necessary.
